Testing Tool: Postman - API Platform

Cloud: Google Cloud Platform

Version Control System: Git/Github

WORK EXPERIENCE

Cognizant - Analyst, India (Dec 2022 - Present)

- **Operations (Google Cloud Platform, SQL)** worked on a client project in the entertainment domain, primarily focused on application support and maintenance.
- Utilized Google Cloud Platform (GCP) and SQL extensively for log monitoring and issue resolution. As an experienced Analyst, possess strong expertise in SQL and a broad skill set across data analysis, programming, and cloud tools.
- Proven ability to manage projects independently while also thriving in collaborative, team-oriented environments.

Prolifics - Software Developer - Analyst, India (July 2021 - August 2022)

- **Devops (Azure, JIRA, ServiceNow) - Application Monitoring** contributed to an enterprise-level healthcare project focused on application support and maintenance.
- Leveraged Microsoft Azure for log monitoring and system upkeep. Experienced Analyst with strong

skills in JavaScript and analytics, bringing a versatile technical toolkit and problem-solving approach.

- Proficient in multiple programming languages and analytical methods, with a proven ability to work independently and thrive in collaborative team environments.

Edvenswa - Full Stack Developer, Virtual (Apr 2021 – Jun 2021)

- Functioned with the Developing Team for Project Management.
- Worked on a e-learning project on cyber security using React.Js
- Operated on applications such as Angular Js and HTML, CSS, Bootstrap, JavaScript, Node.Js, React.Js.

INTERNSHIPS & CERTIFICATIONS

MedTourEasy - Virtual Internship

Cloud Computing Intern (Feb 2021 - Feb 2021)

- Formulated a project titled- CLOUD ARCHITECTURE: Design, Implement and Manage.
- Experienced working on Cloud Computing Professional.

Machine Learning & Data Science Intern (Jan 2021 - Jan 2021)

- Formulated projects titled- SIGN LANGUAGE RECOGNITION, ANALYSIS OF FITNESS DATA.
- Experienced working as a Machine Learning & Data Science Professional.

Data Engineer Intern (Oct 2020 - Nov 2020)

- Programmed a project titled- DATA ENGINEERING on GOOGLE CLOUD PLATFORM.
- Analyzed working of Data Engineering Professional.

Graduate Rotational Internship Program

The Sparks Foundation (Dec 2020- Jan 2021)

- Performed at each level for Data Science and Analytics.
- Mentored the peers along with their performance evaluation.

NamasteSir - FrontEnd Developer Intern (Jun 2020 - Aug 2020)

- Working in a developing team, supporting the projects with the project coordinator.
- Hands-on experience with the web applications using angular js and html, css, bootstrap, java script, git, jira, bitbucket,trello with the company's partner app.

ACADEMIC PROJECTS

Cricket Forecast - Android Application. (July 2016 - Nov 2016)

- We developed an app for amateur players to easily add and update player names for games. A key feature includes predicting the winning team by leveraging match data and deploying intelligent systems tailored to the unique challenges faced by players.

Heart Disease Prediction - Android Application. (Jun 2017 - Nov 2017)

- We developed a healthcare app that provides information on heart disease types, symptoms, doctor details, nearby hospitals, and precautions. It also focuses on using healthcare data to design smart systems and intervention protocols that enhance patient engagement, treatment adherence, and clinical

outcomes.

Discovery of Ranking Fraud for Mobile Apps - Web Application. (Jan 2018 - Mar 2018)

- We developed a website that detects genuine and fraudulent app ratings using inputs from global and local admins, helping users identify trustworthy and high-quality apps.

ACHIEVEMENTS

- One of the top 10 finalists in “**FACEBOOK HERTECH AI HACKATHON**” by WSquare and Thought works the hackathon. **(Apr 2019).**
- Published a journal titled “**CLUSTER COMPUTING**” in the International Journal of Advanced Technology in Engineering and Science (**IJATES**) with an objective of the cluster is utilizing a group of processing nodes so as to complete the assigned job in a minimum amount of time by working cooperatively. **(Mar 2017).**
